1. "Note on Sanatorium Maritim at Bugaz

50X1 "Bugaz Maritim Sanatorium (also called "Regina Maria") is owned by the League
50X1 Against Tuberculosis (Ligue Contre la Tuberculose). the president
is Dr. (fnu) Costinescu.

"Capacity is about two hundred beds for patients given the best accommodations. The greater part of the patients are completely bed-ridden. The rotunda on the second floor serves to accommodate those patients who can walk and by this means the capacity can be increased. The Sanatorium could certainly serve the needs of a total of three hundred patients in this fashion.

"Rooms contain six to eight beds for bed-ridden patients. Special beds are used which may be easily moved on casters. In front of each room, both on the ground floor and on the second floor, there is a terrace sufficiently large to contain all the beds in the room. The patients are taken outside each morning and frequently in the afternoon.

"The director lives in a separate house. Interns live on the third floor of the principal building. A few nurses also live in the principal building on the second floor. There is a separate building for the rest of the personnel.

"The offices, kitchens, operating rooms, dispensaries are all on the ground floor. The rotunda on the ground floor serves as a dining room for the nurses.

"The most modern laboratories, radiology equipment, etc., were at the Sanatorium in 1940.
